Research interests

Lowering the barrier to entry for creative work in video and audio by leveraging and developing state-of-the-art generative modeling techniques. My research interests are primarily in computer audition, with a focus on generative audio modeling (e.g. speech synthesis, music generation), audio representation learning, audio compression, and audio-to-audio mapping (e.g. speech/music separation and enhancement).

Education

Northwestern University, Evanston, IL
09/2019 - PhD, Computer Science

Northwestern University, Evanston, IL
BS, Computer Science, Music Composition - 2013

Professional employment

Adobe Research
Sr. Research Scientist: 2023 - Present

- Generate Soundscape in Adobe Premiere (beta) - picture-synced soundscapes for video, based on our MultiFoley research.
  https://community.adobe.com/announcements-732/now-in-beta-generate-soundscape-in-premiere-1639274
- Generate Sound Effects in Adobe Firefly (beta) - sound effects from text and vocal imitation, based on our Sketch2Sound research.
  https://helpx.adobe.com/firefly/web/work-with-audio-and-video/work-with-audio/voice-to-sound-effects.html
- Contributed to Adobe MAX Sneaks: Project Super Sonic (2024) and Project Sound Stager (2025).

Descript, Inc.
Research Scientist: 2020 - 2023

- Led Studio Sound - state-of-the-art speech enhancement.
  https://www.descript.com/studio-sound
- Core contributor to Overdub - voice cloning for speech editing.
  https://www.descript.com/overdub
- Developed the Descript Audio Codec - high-fidelity audio compression, which powers internal audio language models for editing speech and generating music.
  https://github.com/descriptinc/descript-audio-codec

Northwestern University, Evanston, IL
Postdoctoral Scholar: 2019 - 2020

Northwestern University, Evanston, IL
Doctoral Student in Interactive Audio Lab: 2013 - 2019

Mitsubishi Electric Research Labs, Cambridge, MA
Research Intern: 2018

Adobe Research, San Francisco, CA
Research Intern: 2017-2018

Gracenote, Emeryville, CA
Research Intern: 2016

Publications

Thesis

[1] **Seetharaman, Prem**. "Bootstrapping the Learning Process for Computer Audition". PhD thesis. Northwestern University, 2019.

Patents
